To whom it may concern,

I am pleased to recommend Nicholas M. Galus for your consideration. With over a decade of experience as an IT Supervisor and IT Manager in the Information and Technology field. I had the opportunity to work closely with Mr. Galus during his internship with the City of San Antonio's IT Mobile Communications Division. Throughout his tenure, Mr. Galus demonstrated exceptional technical abilities, quickly grasping our processes and procedures while displaying patience during his mentoring period.

Nicholas consistently exhibits a motivation to learn, by being well-prepared and remaining open to all learning opportunities. His warm and engaging demeanor made him a valued team player, as noted by my staff, and he consistently performed his assigned duties with efficiency and dedication.

It is my honor to provide this recommendation for Mr. Galus, who I believe will be an asset in any professional setting.

Sincerely,

Bobby Humphery

IT Manager,
