It is with immense pleasure that I write to give Nicholas my highest recommendation for the undergraduate program at your esteemed institution. Nicholas is a well-rounded student who excels in whatever he sets his mind to do.

Nicholas is a student that will add to the value of your program in particular and your institution in general. I am privileged to have known Nicholas as his school counselor. Nicholas is fully committed to his academics which is demonstrated through grit and perseverance that translated to Nicholas ranking 8th thus far in his 2024 graduating class of 554 students with a GPA of 4.0.

Nicholas plans to pursue a master's degree in computer engineering/computer science which he states is the reason he chose to attend a specialized magnet school – Northside School of Innovation, Technology, and Entrepreneurship in Northside Independent School District, in San Antonio, Texas. I have no doubts that Nicholas will meet his goals. Nicholas has created video games in C# using the Unity game engine, has developed several projects utilizing a Raspberry Pi computer and integrated with breadboard circuits. He has also programmed using Python and Java. Nicholas holds these certifications Microsoft PowerPoint Associate, Microsoft Word Associate, Microsoft Excel Associate, and Microsoft Office Specialist – Associate.

As a well-rounded individual, he has participated in First Lego League (Robotics), Tae Kwon Do (2nd-degree black belt), art competitions, neighborhood cleanups, track and field (sprinter), and is the varsity football (Defensive Captain). This past summer, Nicholas had the opportunity to work as a summer intern with the City of San Antonio with their traffic engineers where he learned a lot about traffic lights. He is **THE PERSON TO ASK** because he is **DEPENDABLE**. His football coach calls him the **'All American'** as he says that Nicholas is the first person to suit up and step on the field every morning and the last to leave as he always helps clean up.

Nicholas has a heart of gold and goes all the way to lift up his peers. Nicholas's classmates describe him as eccentric because of the unique qualities he possesses and lenses through which Nicholas views and analyzes the world. Nicholas is humble and always willing to offer help to whoever needs it. He is a people's person.

Nicholas is able to do the following; Vehicle Maintenance and Repair, Auto Detailing, Home Improvements (Surveillance systems, Electrical, Fencing, Painting, framing, Siding, Lawn Care and Pressure Washing. It is right for me to call Nicholas the Jack of All Trade and Master of All.

Nicholas is a rare gem; in all my years as a counselor, there are few students who have matched Nicholas's qualities. Nicholas has an intrinsic drive that makes him succeed in all he does.

I am honored and humbled at the same time to be asked by Nicholas to write a recommendation for him.

Nicholas will definitely make your school proud.

Thank you for reviewing my recommendation. Please feel free to reach me with any questions and/or concerns.
