Personal Website

Objective

Motivated computer engineering student with a strong foundation in both hardware and software development. Skilled in integrating embedded systems to control and optimize complex processes, with applications ranging from automation to information technology. Seeking opportunities to contribute technical expertise in programming, circuit design, and system optimization within a dynamic, growth-oriented organization.

Technical Skills

Strengths

- Leadership – Inspiring and guiding teams
- Problem Solving – Adapting and finding solutions
- Collaboration – Working effectively with others

Programming Languages

C, Assembly, Pthon, Java, C#, HTML, CSS, Java Script

Software Tools

- Visual Studio Code
- GitHub
- Arduino IDE
- Ghidra
- Adobe Creative Suite

Engineering Skills & Certifications

Engineering Skills

- Embedded systems design & integration
- Circuit design & analysis (academic & project experience)
- PCB Troubleshooting (hands-on practice)

Certifications

- Java – Information Technology Specialist
- SolidWorks CAD Design Associate
- Microsoft Office Specialist 2019 – Associate
- Microsoft PowerPoint 2019 – Associate
- Microsoft Word 2019 – Associate
- Microsoft Excel 2019 – Associate

Education

Bachelor of Science in Computer Engineering — **Graduation May 2028**

St. Mary's University, San Antonio, TX

GPA: 3.81
Relative course work: C Programming, Object-Oriented Programming (Java), Circuits Analysis, Logic Design Fundamentals, Physics II, Calculus II
Awards: Honors Scholar and Scholarship, Trustees' Scholarship, Jack C. Jordan Scholarship, William Ludwikowski Scholarship, Valero Alamo Bowl Scholarship, Dean's List
Extracurriculars: Institute of Electricla and Electronics Engineers (IEEE) – Treasure, Society of Hispanic Professional Engineers (SHPE) - Member, President's ambassador – University representative & student leader, Honors Program – Leadership Council Member, Resident Assistant (RA) – Peer mentor & community Leader

Associate's Degree Equivalency and High School Diploma — **Jun 2024**

Northside School of Innovation, Technology, and Entrepreneurship (NSITE)
Holmes High School, San Antonio, TX

Awards: Service Academy Congressional Nominee, UIL Football Academic All-State, UIL Computer Science – 2nd Place District, KSAT Instant Replay Scholar Athlete of the Week
Extracurriculars: Football – Varsity Defensive Captain, NHS – Chapter's Secretary, UIL Computer Science Club – Team Captain, Track and Field, and Swim and Dive

Professional Experiences

ICR – Cyber Engineer Intern **Summer 2025**

- Programmed in C and x86 assembly to build and optimize low-level software
- Collaborated with team members to test, debug, and document code

Spring Research Fellowship – Undergraduate Researcher **Spring 2025**

- Applied partial differential equations to model permafrost thaw dynamics
- Developed Python scripts to simulate and analyze system behavior

City of San Antonio (Information Technology Services) - Intern **Summer 2024**

- Processed and documented 600+ devices to improve recycling and inventory tracking
- Provided technical support for Android/iOS devices, assisting 10–15 users daily
- Maintained accurate repair logs to streamline support and troubleshooting

Accenture Federal Services, IT Technical Support - Apprentice in Training **Spring 2024**

- Deployed 30+ Windows laptops with proper configuration and functionality testing
- Assisted senior technicians in diagnosing hardware and software issues
- Resolved 75+ ServiceNow tickets to improve system reliability

City of San Antonio (Public Works) - Intern **Summer 2023**

- Analyzed traffic patterns for 2,000 lights and generated 50+ technical reports
- Programmed and synchronized 30+ signals to improve traffic flow efficiency
- Assisted transition to cloud-based controllers with data migration and configuration

---

Volunteering

St. Mary's **2024 - Present**

- Supported campus and community initiatives through the Honors Program
- Assisted local elementary school with beautification and maintenance projects

High School **2023 - 2024**

- Supported campus and community initiatives through the Honors Program
- Assisted local elementary school with beautification and maintenance projects

---

Hobbies & Interests

Automotive

- Vehicle maintenance – Routine service on cars, trucks, RVs, and boats
- Performance upgrades – engine and transmission rebuilding, component modifications
- Electrical integration – custom wiring harnesses for lighting, horns, and interior/exterior systems
- 3D printing – designing and fabricating engine tools and switch housings
- Auto detailing – for appearance, protection, and refinishing

Fitness & Martial Arts

- Tae Kwon Do – 2nd Degree Black Belt, junior instructor experience
- Strength & Endurance – Powerlifting, swimming, running, and biking

Technology & Engineering

- Electronics & Robotics – Circuit design, building, and troubleshooting
- Software Development – Game and web applications (full-stack)
- RC Engineering – Modifying and optimizing remote-controlled cars for speed and performance
- 3D modeling – Creating functional components for projects like a protein dispenser and ergonomic tools
- Embedded systems – developing custom light control modules and hardware/software integrations
